What Our Trainees Think...

"Best thing about the Dunbia Butchery Academy is the chance to earn while I learn. What helped me progress so quickly was the help I got from my mentor and the team leader and the determination in myself"

"I joined the Butchery Academy because I saw how far people could progress. I became the first female B-Grade Trimmer in Dunbia Sawley."

Best thing about it is you are learning new skills every day. I recommend it to everybody...it's a great start off in life especially when you are coming out of school.

"I've got a lot out of the Butchery Academy...I've been able to buy my own house, I've met new friends and have got a trade for life."

"My advice to any young person is to start as early as you can, work as hard as you can and ask for help of trainers and colleagues. The best thing about the Dunbia Butchery Academy is the help that you are given by everybody...they make you feel like part of a big family."
