

Basically we want to provide information on:

- What is work experience?

Work shadowing is an informal type of work experience where you observe someone in their role to understand how they do their job.

This is usually short term– aimed at providing an insight rather than hands on experience.

- Why do we provide work experience?

Going into a particular work environment to find out a little more about the profession you are interested in.

- Provide motivation for exams in the future
- May cause a change in your career path.
- May help with applications to University (UCAS forms) / Jobs

- The benefit of work experience.

1. Raise pupils' aspirations by

Broadening individuals' horizons

and increasing their knowledge and understanding of the available opportunities in employment.

2. Raise levels of motivation and achievement by:

Promoting the development and self-esteem and self-confidence.

Relating learning and curriculum content to future opportunities including the world of work.

Helping pupils to develop skills associated with success in education, training and employment.

Helping pupils to develop the skills and flexibility needed to manage changing career opportunities.

Challenging occupational stereotypes.

Explore options they may not have considered or had assumed would not be open to them.

- When does it take place?

First week in February

This year 6-8th Feb 2017

- What year group does it involve?

Year 13 – the main focus on work experience

Yr14 – Generally placements for students who require experience for UCAS who have previously missed this in the past year

Yr12 – some opportunities but there is an age restriction on many companies

- What are the steps undertaken to secure a work experience?

SEE FLOW DIAGRAM ATTACHMENT

- Introductory form and details confirmed / Parental Consent forms signed (one combined form)
 - To be returned to form teacher (or Mr laird)
- Student phones placements (see list attached) Or school applies for specific areas (see attached sheet)
- Confirmed place from employer -
 - Before Halloween
- Indemnity /insurance forms sent out by Halloween
 - Halloween

The vast majority will have placements confirmed and sorted by Halloween

- Late January -Final briefing

- The industries/organisations that help us provide this for our pupils?

The areas of careers used in the past include

This only a guide and phone numbers and contact names will change through time

Below is a list of the general areas of work experienced in the past.

- **Social Work** as a Career presentation –
- **Pharmacy Technician –**

- If work experience is not available in their chosen area can they volunteer?

Yes Contact the volunteer office in Altnagelvin (See Mr laird for details)

- Provide links to volunteering websites
- The benefits of volunteering

- Other work experience opportunities (Summer schemes etc.)

Work experience only can take place at term time but it is very important that CLASS time should be kept to a minimum

Year 13 Feb / Half days or staff baker days can also be used for extra experience if the Feb placement was missed

Yr 14 – placements required for ucas entries where experience has not yet been gained previously

- Links to external organisations

- These are just suggestions, anything else you can think of would be greatly appreciated.

It is important either to be willing to travel around N Ireland or broaden your ideas to a career family as there is not necessarily the specific career available for confidentiality reasons

The only downside is that I don't want too much writing, one of the main problems with our current website is the amount of text and I think this can put people off reading it. If you have tables, diagrams etc. that would be ideal. If not I am sure we can put something together.
